PERSONAL PROJECTS

Netflix-Clone

- While working on netflix I am so excited to play with APIs and I learned how to fetch data from APIs.

Shopping-website

- It was a great Experience while dealing with database, fetching data from database and using sessions .Throughout this project my skills are improved.

Music-Player

- It was quite challenging for me to make music player. While doing it I got stucked between,which i learned and correct it by learning from some youtube channel and other website.

X Zero game

- I am always excited to play my own game so I tried to programmed small game. I personally enjoy playing it.

Real-Time Clock

- It was difficult for me to find how many time it take to cover 360deg(60 second). Here I learn some thing new such as animation and all.

Temperature Unit Converter

- Since it is difficult for humans to convert any temperature into other units. So I made my own TUC (Temperature Unit Converter).
